

ALL OUR PRICES ARE QUOTED IN BRITISH POUNDS STERLING.

**US & World-wide customers paying for their order with
either a US dollar based credit card or with a credit card
based on others currencies.**

All our talismans are created and empowered in Great Britain by one of the worlds most experienced & dedicated western mystics. Clients residing outside Britain will be charged in their local currency by their own credit card company at the official exchange rate on the day.

By law when you order online we do not get to see any of your credit card details. All orders made on our secure server go straight to our bank and they make the security checks to insure that you are the genuine card owner and then charge your credit card in British pounds. Your own credit card company then convert this into US dollars and debit it from your credit card account in US dollars if you reside in the USA, or into your local currency if you reside else where. This is similar using your credit card in another country while on vacation.

There are currency converters on Google if you wish to check the exchange rate of your local currency

**The very weak British pound at present translates into massive
savings for anyone paying for their online order using a
US dollar based credit card.**

Six months ago the exchange rate for the US dollar was \$2.05 to one British pound. However at this moment in time the British pound is at a historically low exchange rate against the strong US dollar. The value of the British pound has fallen against the US dollar by over 30% in the past few months. This translates to massive saving compared to a year ago for anyone paying for their order with a US dollar based credit card. However the British government cannot afford to allow this unequal situation to continue for much longer. For this reason we strongly advise that customers with US dollar based credit cards should place their order as soon as possible and not risk the exchange rate changing back before they have time to place their order.

Orders despatched to the USA usually only take around 8 to 10 working days to arrive at our customers address.
