

**Histories Most Successful Talisman Creator was without doubt the  
15th century Mystic known as**

# AGRIPPA

The famous Mystic and Visionary **Agrippa** {Cornelius Agrippa von Nettesheim 1486 – 1535} gained his vast knowledge of the working of nature's secret laws through direct access to copies of ancient manuscripts once belonging to the great biblical King Solomon.

His celebrated work is **De Occulta Philosophia**, a comprehensive defence of the true benefits of holy magic within creation, in which he successfully argues that true magic offers mankind the means of understanding God and all his manifestations in nature. All creation, he believed, manifests from a single point and is animated by the same life force. Man, Nature and the Cosmos are therefore interdependent, their relationship governed by the same natural Cosmic law and the same creative **holy word** that in the beginning brought about all creation. To truly enjoy life one must aim to live in harmony with the divine word and see its glory made manifest in nature and running through all things. Holy words in the form of talismans are the key to attracting Cosmic blessings and protection.

Agrippa referred to his two most successful and beneficial talismans as **Seals**, as the **holy words** of creation were sealed within the talismans for the good-fortune and well-being of its owner. The wearing or carrying of **holy words** on one's person in the form of a sacred talisman, he declared, will cause a blanket of the purest and most positive Cosmic energy to wrap its highly protective divine light around its owner, the benefits of which are totally beyond measure.

Agrippa warned his disciples "If your thoughts can grasp nothing beautiful and good, and you refuse to see the Creator in all things, then you cannot know God. For there is nothing in the universe that is not God. And they who say God is invisible and can only be contacted through them are either blind or they lie. They should not speak so, for who is more manifest or visible than the Creator of Life." As you might expect, this enlightened work was condemned by the Inquisition in 1533.

The only thing that saved Agrippa from the stake was the fact that he genuinely had an understanding of Cosmic law and is known from history to have used this knowledge to cure victims of plague, amongst other things. In fact, along with Nostradamus who was himself a student of the pure Cosmic law, Agrippa is the only other person on record with a 100% success rate in curing plague victims. He is known to have used his knowledge of **talismatic holy words** to help bring the victims' body back into harmony with the creative life force. It is no surprise that anyone with this sort of gift was protected from the Inquisition by both Kings and Noblemen alike, who were themselves aware that they too might one day be in need of his unique skill.

Today, the works of Agrippa are revered throughout the world by students of Cosmic law, and his talismans are the most highly prized and sought after magical items, particularly his First and Second sacred Seals which are regarded as his two most powerful & highly beneficial talismans. For it is believed that these two Seals become infinitely more powerful and effective over time and the older the talisman the more valuable it is considered to be.

**Normally such precious items** as the First & Second Seals of Agrippa are passed down within one's family. With the passage of time, these seals are known to become infinitely more powerful & beneficial and will radiate larger and larger amounts of positive, harmonising Angelic energy. As a result, the whole family prosper and seem to be blessed with the luck of the Angels, which in fact they are.

**Agrippa's genius** was in recognising in the copies he had of Solomon's manuscripts, the Old Testament, the scriptures of the secretive Essence {the mysterious priesthood associated with Jesus} and the Holy Koran, that they all have one thing in common - the conviction that all things both physical and spiritual came into being through the power of the sacred divine word. He understood that the physical and spiritual, as well as the soul and the body, are simply two sides of the same coin and for any talisman to be truly effective it had to be imbued with the life-giving divine Cosmic word that creates and combines all things.

**In his life long quest for knowledge**, Agrippa discovered an ancient secret that showed him how to use holy words of power inscribed on to talismans to create a harmonic life-giving rhythm between the talisman, its owner's body & soul and the life-giving force of the universe. The process is difficult and very time consuming and it has taken our Adept a number of years to fully master. However, anything as worthwhile as this is worth the effort.

**Traditionally**, the **First & Second** sacred seals of Agrippa are carried or worn in conjunction with one another. It is best to have both of them, but they can be used separately if desired. However, carried together they are known to treble the power of each other as well as any other talismans or holy items you may be or carrying at the same time.

**Anyone can achieve immortality.  
Simply by living a life that will be - worth remembering.**

This task can be realized at any stage in life. You are advised that true success will be guaranteed if you have benign talismatic forces on your side. Our Adept highly recommends the First Seal of Agrippa
